Retail Data Engineering & Automation – Business Plan

1. Executive Summary

Your business provides end-to-end data engineering, cloud analytics, and automation solutions designed for Australian retail shops. You offer Snowflake warehousing, AWS ETL, POS integrations, dashboards, and AI insights, with an offshore team in India for support.

2. Business Model

• Cloud Data Engineering for retail

• Retail analytics automation

• POS → Cloud integrations

• Warehouse setup and forecasting

• Monthly subscription plans

3. Target Clients

Retail shops including clothing, grocery, mini-marts, salons, electronics, gyms, cafes, and pharmacies.

4. Services Offered

A. Data Pipeline Development

AWS Glue, EMR, Snowflake, Talend, Python ETL, POS integrations.

B. Retail Data Warehouse Setup

Star schema, sales/inventory fact tables, customer loyalty, forecasting.

C. Dashboards & Reporting

Daily sales, product analytics, staff performance, inventory alerts.

D. Automation

Automated reporting, email summaries, demand prediction.

E. AI Tools

Retail chatbot, segmentation, fraud detection, forecasting AI.

5. Pricing

Projects: $3,000–$50,000

Subscriptions:

• Starter – $399/month

• Standard – $799/month

• Premium – $1299/month

6. Team Structure

You in Australia handle architecture, clients, and delivery.

India team manages ETL, dashboards, monitoring, QA.

7. Tech Stack

AWS (S3, Glue, EMR), Snowflake, Redshift, Airflow, Python, Power BI, Tableau, dbt.

8. Marketing Plan

Website, retail walk-ins, LinkedIn outreach, free analytics audit.

9. 30-Day Launch Plan

Week 1: Register ABN, set up branding, pricing

Week 2: Build demos, train India team

Week 3: Approach retail stores, LinkedIn outreach

Week 4: Deliver first dashboards and onboard clients

10. Financial Projection (Year 1)

• Monthly recurring revenue: ~$6,000

• Project revenue: ~$40,000–$80,000

Total Estimated: $120,000–$150,000 AUD

Conclusion

A scalable, niche-focused data engineering business tailored for the retail sector, leveraging your backend skills and offshore capability.
